# Recent range-wide demographic expansion in a Taiwan endemic montane bird, Steere's Liocichla (Liocichla steerii)

Bailey D McKay\*1, Herman L Mays Jr<sup>2</sup>, Yi-Wen Peng<sup>3</sup>, Kenneth H Kozak<sup>4</sup>, Cheng-Te Yao<sup>5,6</sup>, Hsiao-Wei Yuan\*<sup>3</sup>, Pei-Fen Lee<sup>7</sup> and Fu-Hsiung Hsu<sup>8</sup>

#### Correction

After the publication of this work [1], we became aware of three minor errors, none of which have anything to do with the content of our paper. As a result, we have now added an acknowledgment for NSC funding to Hsiao-Wei Yuan. We have also added Hsiao-Wei Yuan as a cocorresponding author. Finally, we have added Pei-Pei-Fen Lee and Fu-Hsiung Hsu to the author list. They provided occurrence data for the Ecological Niche Modeling and felt that they should be co-authors of the study. We apologize for any inconvenience this has caused.

## Submit your next manuscript to BioMed Central and take full advantage of:

- Convenient online submission
- · Thorough peer review
- No space constraints or color figure charges
- Immediate publication on acceptance
- Inclusion in PubMed, CAS, Scopus and Google Scholar
- Research which is freely available for redistribution
